

KAYAKING TOURS

WHERE PURE WILDERNESS AND LUXURY MEET.

Paddle through the calm ocean channels between the islands of Quadra, Maurelle and Read. You will take breaks to explore points of interest, enjoy a little beachcombing, and savor the ambience of the area. You'll explore the small islets and tidal backeddies of Surge Narrows Marine Park.

In the shallow waters of the passes you'll have great opportunities to view the diversity of colourful marine life for which the area is famous. Given the abundance of wildlife, you're sure to see many shore and sea birds, spy mink, otter and seals. If you are lucky, it's possible that dolphins or a pod of whales might share your route. Choose from a half or full day excursion.

All of our kayak guides are certified, experienced and thoroughly familiar with the area. You feel safe, secure and well-looked after. Dress comfortably with unrestrictive clothing. Kayaking trips begin with instruction and practice of paddling techniques and safety procedures. A personal flotation device will be provided.
